

30 years of designing and
manufacturing innovative
electric fencing solutions

NEMTEK
Electric Fencing Products

ANIMAL MANAGEMENT QUICK REFERENCE

ELECTRIC FENCING PRODUCTS THAT DELIVER PEACE OF MIND

The Nemtek group is a globally known and well-respected company manufacturing a full range of energizers and fencing hardware. With our pioneering products, we have become the benchmark for the electric fencing industry and the products of choice.

This brochure offers you an overview of the electric fencing products that we design and manufacture for the agricultural, equine and pet, and game markets, which include a comprehensive range of energizers and a complete range of fencing hardware. We have products that can reliably address many types of fencing needs, ranging from small enclosures to large farms and game reserves.

Our unbeatable experience in the security field has revolutionised the design of game- and animal-farm energizers. The energizers now offer security features and communication capabilities to not only keep animals in, but to also effectively control the theft and injury of animals by poachers and predators.

For more details and information on our products, visit www.nemtek.com
